VOLUME 6, NO. 281

BRAINERD, MINN., TUESDAY, APRIL 30, 1907.

PRICE TWO CENTS

## How is Life Sustained?

By healthful food and healthful exercise. Whenever you move there are tissues to die. What will be the character of the new ones? It all depends upon your supplying your blood with the proper food.

## DR. PRICE'S WHEAT FLAKE CELERY FOOD

will make blood to supply healthful new tissues in place of the old. It regulates the bowels, tones the system, is relished by everybody and should be eaten every morning.

Palatable—Nutritious—Easy of Digestion and Ready to Eat  
Can be served hot. Put in a hot oven for a few minutes; or cook in boiling milk.

## PLAN FRIENDLY SUIT

Northern Pacific Stockholders  
to Enjoin Officials.

### NEW MINNESOTA FARE LAW

Legal Action Will Be Taken to Re-  
strain Officers of the Company From  
Accepting It—Great Northern May  
Become a Party to the Suit.

New York, April 30.—The Tribune says certain stockholders of the Northern Pacific Railway company will, it is understood, bring a friendly suit against the officers of the company for an injunction to restrain them from accepting for the company the two-cent fare law in Minnesota. As they could not bring legal action against the sovereign state their only alternative was to bring it against the officials of the company. The latter are compelled unless restrained by the courts to comply with the provisions of the law. Those who are familiar with this proposed legal action attach great importance to it, as if the injunction is granted it will serve as a stay to the enforcement of the law as far as the Northern Pacific is concerned for perhaps two years.

The Great Northern company doubtless will become a party to the proposed suit of the Northern Pacific stockholders.

### Union Pacific Will Resist.

Lincoln, Neb., April 30.—A letter from Union Pacific headquarters to the state railway commission intimates that the roads contemplate resistance to the 2-cent passenger fare law.

### GRAVE POLITICAL CRISIS.

Military Government Proclaimed in  
Montenegro.

Vienna, May 1.—Dispatches received here report the outbreak of a revolt and grave political crisis in Montenegro. A military government has been proclaimed and Premier Tomanovitch has tendered the resignation of the cabinet, which Prince Nicholas has refused to accept.

Armed bands are reported to be marching on Cetinje.

Serious street fights have occurred at Podgoritz, thirty-eight miles north of Sutar, and having a population of about 7,000. Several persons are reported to have been killed or wounded. The militia has been called out there and further conflicts are feared.

The trouble in Montenegro has arisen because of the campaign the cabinet has inaugurated against the Radical party. The government is accused of instigating the destruction of the printing offices of two Radical newspapers at Niksic and Podgoritz, which had attacked the government and Prince Nicholas. This action of the cabinet has aroused anger throughout the country.

### Disastrous Explosion.

Cetinje, April 30.—One person was killed and thirty persons were seriously injured by an explosion of dynamite and the harbor works at Antivari on the Adriatic and the buildings surrounding the harbor works were badly damaged and the telegraph lines were wrecked.

### Governor Mortally Wounded.

Cetinje, Montenegro, April 30.—General J. Martinovitch, governor of Podgoritz, and Chief of Police Masivoda were shot by an assassin and both mortally wounded. The assassin was killed.

### WORK OF MASKED MEN.

Seven Hundred Sheep Killed With  
Dynamite.

Cheyenne, Wyo., April 30.—An explosion of dynamite at John Linn's sheep camp on Trapper creek, Big Horn county, killed 700 sheep and completely destroyed camp wagons and other possessions. The story of the outrage was told by a herder who said that a band of masked men raided the camp and after binding him securely arranged for the work of destruction.

A similar attack was made upon a sheep camp in the Trapper creek section two years ago.

### Dies to Escape Capture.

Cleveland, April 30.—While intoxicated, John Stephenchik fired five shots at John Vinnek. A stray bullet struck Kate Schar, aged eleven, inflicting a flesh wound. An angry crowd pursued Stephenchik, who, seeing he was about to be captured, shot and killed himself.

### Costly Fire in Pennsylvania.

Cory, Pa., April 30.—Fire in the building occupied by the Union City chair company at Union City caused a loss of \$300,000. Directly opposite the building are three hotels and the occupants were forced to seek places of safety.

## IN FAVOR OF HARMONY.

Mayor McClellan of New York Issues  
a Statement.

New York, April 30.—Mayor McClellan has issued a statement in which he confirms the results of the conference between Timothy D. Sullivan and Corporation Counsel William B. Ellison.

In his statement the mayor says that this conference as well as others was held with his sanction, but that throughout it all he insisted that he be left entirely free to fill all offices with men of the highest class obtainable.

"I have made no deal," he says, "and I have authorized the making of no deal which alters my position in any way. It is and shall be my ambition to give to the city the best administration that it is possible for me to give it and factional politics will not be permitted to interfere with that course."

"I take back nothing that I have said concerning the management of the Democratic organization and I reiterate what I said in appointing a commissioner of elections that I should like to have the support of the Democratic organization, but if I cannot have that support under conditions which favor clean and efficient government then I am content to do without it."

"If the elements that constitute Tammany Hall wish to harmonize on that plan, then I am for harmony. For a political peace which is so needful to my party in the city, the state and the nation I shall go as far forward as any man but not one step backward."

### GOVERNMENT CONCERNED.

Miners' Strike May Kill Canadian Industrial Disputes Act.

Ottawa, Ont., April 30.—Members of the government are greatly concerned over the news from the strike district of Alberta and Eastern British Columbia.

The fact that so many of the striking miners have refused to return to work as required of them by the new industrial disputes act after a board of conciliation and investigation had been appointed renders each man liable to a minimum fine of \$10 a day. The question is asked, will the government prosecute each of the 3,000 odd miners or will the law become a dead letter?

### REFUSE TO RETURN.

Strikers Will Remain Out Until Demands Are Granted.

Fernie, B. C., April 30.—The strike situation has reached a crucial point. During the latter part of last week Labor Leaders Lewis and Shockey had been using every effort to get the men to return to work Monday pending the sitting of the board, but from returns of the votes from the different locals their efforts appear to have been signally unsuccessful. The men appear to have taken matters into their own hands and have decided not to return to work until they receive satisfactory answers to their demands for increased pay.

### GATES WILL WITHDRAW.

Decides to Retire From the Brokerage Business.

New York, April 30.—The World says John W. Gates and his son, Charles G. Gates, head of the stock exchange firm bearing his name, have decided to withdraw from the brokerage business. Charles Gates is anxious to spend a year on his new hunting preserve with his father.

The firm of Charles G. Gates & Co. is composed of Charles G. Gates, Arthur J. Singer, Charles G. Smith, Orson C. Wells, Ramsey C. Bogy, Frank H. Hubbard, J. B. Morrow, Walter H. Dupee, Melville D. Martin, John W. Gates, John Lambert and Frank E. Drake. It is known in Wall street as "the house of twelve partners."

### EIGHTEEN MINERS PERISH.

Cut Off by a Flood in a Mine Near  
Liege, Belgium.

Liege, Belgium, April 30.—Eighteen miners were cut off by a flood in the Angleur pit near this city. Two hundred others succeeded in making their escape. The flood took place without warning in a gallery 200 feet from the surface. A majority of the men who escaped were dashed to the bottom of the shafts, whence they were hoisted to the surface. The entombed men were prevented by falls of earth from making their way out. Relays of salvagers with the latest apparatus immediately began work. They recovered nine bodies and hope has been given up that any of the entombed men will be rescued alive.

### Two Boys Injured.

St. Paul April 30.—James Mattimore, fifteen years old, was seriously injured; John O'Halloran, ten years old, was badly bruised, a horse driven by the boys was killed outright and the buggy smashed into splinters in a collision with a street car at Selby avenue and Arundel street. Mattimore is unconscious. His spine is injured and his condition is serious.

## Rengo Cure For Fat People

Costs Nothing to Try.

Rengo, one of the most famous products of the land, is now declared by scientists to be Nature's own marvelous cure for obesity of excess fat.

This illustration plainly shows what Rengo has done.

Rengo does more than reduce the weight and get rid of the fat. It does all this without weakening the patient, or otherwise working him harm, and it positively builds up the health, giving increased strength and vitality. It brings almost immediate relief from the dangers of fatty degeneration of the heart and other fatal conditions which nearly always accompany excess fat.

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid by the Rengo Co., 3653 Rengo Bldg., Detroit, Mich. If you prefer, they will gladly send you a trial package free by mail. For sale and recommended in Brainerd by H. P. Dunn & Co., Druggists.

THE DISPATCH accidentally overlooked yesterday to make mention of the entertainment given by the High school Saturday evening. It is reported to have been very interesting, those taking part doing themselves and those training them credit. It seems to be the consensus of opinion that Miss Mabel Smythe, in the comic musical recitation, "The Music Lesson," carried off the honors of the evening, though every number on the program was creditable.

## TAXPAYERS MAY ASK INJUNCTION

Courts are to be Asked to Prevent Purchase of Steam Roller by City

SO SAYS A TAX PAYER

City Does not Need the Machine and Has not the Money to Buy He Declares

One of the heaviest tax payers in the city made the remark this morning that "We are going to get out an injunction and stop the purchase of a steam roller if it is the last thing we do in Brainerd." The gentleman who made the remark is not a man who is given to bluffing, but one who has been known in Brainerd as one who usually gets what he goes after, and one who has been instrumental in securing a reduction in taxation the past few years. He gives as his reasons for the determination to enjoin the city that the roller is not needed; that the present horse roller is heavy enough to roll any macadam street, steam rollers being only necessary to use on asphalt paving. He laughs at the idea of it being needed to run the stone crusher and says that it simply means that the city must hire an engineer and buy coal when it has day current going to waste and a motor needs no engineer. There has been considerable criticism of the purchase of the steam roller and it is said that there will be many tax payers ready to stand by the gentleman in his efforts to prevent the purchase.

Another citizen, in discussing the matter this morning said, "If the city has money to spend why don't they take the money and use it for better fire protection. With all the best insurance companies drawing out of the city it is time that something was done."

## FLOOD IN OKLAHOMA.

Rivers Out of Their Banks and People Driven From Home.

Oklahoma City, Okla., April 30.—With Lightning creek out of its banks and the Canadian river rising steadily, the people in the lowlands of Capitol Hill, a suburb of Oklahoma City, are facing a situation that will become critical if the heavy rains of the past twenty-four hours continue.

The lowlands have been converted into a veritable swamp, crops have been ruined and much stock drowned. No human lives have been lost so far as can be learned. Residents of the bottoms were forced to leave their homes and several persons were kept in trees all night. One house floated down the Canadian river with a family inside. The occupants were rescued.

Four inches of rain, accompanied by heavy hail and high winds, fell throughout Southwestern Oklahoma and the Texas Panhandle. Telephone and telegraph wires are down and communication with many towns is cut off. The rain will be of great benefit to the cotton crop. The wind damaged several houses in Walter and Mangum.

In Tulsa, I. T., the temperature fell below forty. Three inches of rain fell there and it is still raining.

At least one person is believed to have been drowned.

All the railroads suffered. The Rock Island did not run trains either way from the city on account of washouts.

## JUDGMENT IS AFFIRMED.

Packers Lose on Appeal in Railroad Rebate Case.

St. Paul, April 30.—Judge Sanborn has filed the opinion of the United States circuit court of appeals, which he had written, affirming the judgment of the United States district court for the Western district of Missouri against the packers for accepting concessions of 12 cents per 100 pounds from the portion of the established rate for the transportation of provisions on through bills of lading from Kansas City to Christiana and other points in foreign countries. Judges Hook and Adams concur in the opinion.

The lower court imposed a penalty of \$15,000 on each of the indicted firms and these fines have been affirmed.

## IS ENTHUSIASTIC OVER PROSPECTS

S. F. Fullerton, Superintendent of Fisheries for State Commission Talks

MUCH WORK BEING DONE

With New Appropriations Minnesota Waters will be Soon Stocked

S. F. Fullerton, the superintendent of fisheries for the Minnesota Fish and Game Commission, who was in the city yesterday on his way home from a visit to Gull lake, where he has two crews at work gathering pike spawn, talked freely to a representative of THE DISPATCH concerning the work of the fish commission in restocking the rivers and lakes of Minnesota, and incidentally imparted some very interesting information as regards the habits, etc., of the various species of fish.

Mr. Fullerton remarked first on the lateness of the spring, saying that the spawning of pike (or pike-perch, which he stated is the true name for the fish, it being of the perch family, while the muskalonge and pickerel are the representatives of the European pike family in America) is usually from the 18th to the 23rd of April, while a letter from Tower received yesterday stated that the ice in Vermillion lake was just as solid then as at any time the past winter. Notwithstanding this the crew on Gull lake were having fine success. The two crews, one of which is under the charge of J. P. Saunders and the other of a deputy game warden from Detroit, were getting much spawn, though the weather was so cold as to make the work unpleasant if not hazardous. They expect to take at least 8,000,000 spawn from the pike seined at Gull lake. The size of some of the pike taken in Gull lake this spring is something remarkable, he states. From two females he took over half a million spawn. When one stops to consider that there are 175,000 eggs in a quart of spawn it will be seen that the fish were large ones. They would, Mr. Fullerton estimated, weigh 15 pounds apiece. Mr. Fullerton wished, he said, to correct the misapprehension that the taking of the spawn from the pike in Gull lake would hurt the fishing there. The contrary is the case. When the spawn are deposited in the lake by the fish, uncared for, it has been proven that at best not over four percent are fertilized and hatch. Where the spawn are taken from the living fish and fertilized by hand the percentage which hatches is found to be 96. At Gull lake when the spawn are taken out 15 percent are fertilized and returned to the waters of the lake, so that the fish will increase much more rapidly than if not disturbed.

The securing of bass spawn is much more difficult than gathering that of the pike. The pike can be handled without in the least injuring the fish while the bass cannot. If handled it causes a fungus growth which not only will kill that fish but will affect others. The fish are therefore kept in captivity and permitted to propagate naturally. At the fish hatchery at Glenwood there are bass kept for that purpose and one very curious fact was stated by Mr. Fullerton. Nests are placed in the pond and are used by the fish the same as a hen will use a nest provided. Boxes are used, being partially filled with sand.

The female, after laying the eggs, utterly abandons them and but for the male who cares for and watches them, would destroy her own offspring.

The state also owns a launch and a houseboat to accommodate a crew of eight men who are engaged during the fall of the year in gathering fish fry from the sloughs and ponds along the Mississippi. The fish go back into the sloughs during high water in the spring and as the waters recede the fry are left in pools where they freeze out in the winter. The United States fish commission has for some time had a crew of 25 men at work securing the fry and now the state has taken up the work. They expect to get millions of the fry.

In speaking of the new hatchery at Deerwood Mr. Fullerton said that he had been in touch with legislative matters for many years and S. F. Alderman was without exception the most successful senator, in getting things during his first term, that he had ever known. He also spoke enthusiastically regarding the location of the hatchery. When asked as to the nature of the steel head trout being placed in Serpent lake he stated that they were a species of salmon, having all the characteristics of that fish, even to its gaminess and the color of its flesh. It will take the fry about four years to mature and there should be good fishing in Serpent lake at the end of that time.

There are also several varieties of speckled and rainbow trout being propagated. Mr. Fullerton states that there are many requests for several varieties of trout for the same body of water, but that is inadvisable as they cross breed to a certain extent and the hybrid, like a mule, will not reproduce itself and they soon run out.

The state has also, at the last session of the legislature, authorized the pur-

chase of a fish car for the state. This car will be equipped with tanks and with machinery for properly aerating the water so that fish or spawn can be kept in it indefinitely. The car has been already ordered of the Hicks locomotive works and will cost \$9,500. When this is in commission, and it is to be delivered in August next, the deliveries on one line of road will be taken aboard in bulk and the parties receiving the fish will be telegraphed to meet the train, which can be attached to a passenger train and the fish delivered while the ordinary stop is being made, the car thus delivering from ten to 100 times as many fry and in better shape than the same number of men could otherwise do.

With the new hatchery, new car, launch on the Mississippi and other facilities, Mr. Fullerton states that all the rivers and lakes in the state can soon be well stocked with fish.

Mr. Fullerton, in speaking of the different varieties of fish, defined the difference between a pickerel and a muskalonge. The former, he stated, had a forked tail and ragged edged fins, while the muskalonge had a tail which was either straight across the end or rounded out in a circle, usually the latter. The gill covers of the muskalonge are bare, while those of a pickerel have scales, he also states.

Kind Words for the Doctor

Dr. S. W. Mowers, formerly of St. Cloud but for the past few years assistant of the Northern Pacific sanitarium at Brainerd, has been given a merited promotion. He has been made chief surgeon of the Northern Pacific hospital at Tacoma. His numerous St. Cloud friends will extend congratulations. When he was at St. Cloud he enlisted in a Minnesota regiment at the time of the war with Spain, and was appointed surgeon of his company. He made an excellent record and at the close of the war was appointed assistant at Brainerd. He is an able physician and a very pleasant gentleman.—St. Cloud Journal-Press.

Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Christolm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by H. P. Dunn & Co., druggists, Brainerd, Minn. 50c.

## BRITISHERS BADLY BEATEN

Jackies From the Alabama Win International Boat Race.

Norfolk, Va., April 30.—The first of the international boat races between the crews of warships gathered off the Jamestown exposition grounds in Hampton Roads was rowed between boat crews from the British armored cruiser Roxburg and the American battleships Alabama and Virginia.

The Britishers were left far behind after holding the lead for the first hundred yards and the Alabama jackies won from the Virginia's crew by a scant ten yards after a bow and bow struggle over the mile course.

The victory of the Alabama men won for them the "Jamestown cup" offered for the best crew of rowing officers in the fleets of America, England, Germany and Austria, assembled here for the exposition. The time of the winners was 10 minutes and 1 second.

Woman Killed by a Train.

Cedar Rapids, Ia., April 30.—Mrs. William Jones was struck by a Milwaukee flyer while driving across the tracks during the blinding snow storm here and was instantly killed.

## UNDER "UNWRITTEN LAW."

Georgia Man Acquitted by a Coroner's Jury.

Macon, Ga., April 30.—L. D. Strong, manager of a large mercantile store in this city, walked into the printing office of Henry D. Smith and fired five bullets into Smith's body. While the tragedy was being enacted the grand jury found an indictment against the man slain for seduction of Miss Lillian Strong, sister of the slayer. A coroner's jury rendered a verdict of justifiable homicide under the "unwritten law."

More Jurors Selected.

San Francisco, April 30.—Four more jurors have been finally selected and five were sworn in in the Ruef trial. This leaves three additional jurors to be obtained to complete the trial panel—a task begun two months ago.

## SEVERE STORM RAGING.

Heavy Snowfall in the Northern Part of Italy.

Rome, April 30.—A cold wind which arose suddenly is blowing over the peninsula, particularly in the northern part, where also a severe snow storm is in progress. In the Alps and in the provinces of Belluno and Bergamo the snowfall has reached several inches.

At Messina great apprehension still prevails over the eruption of the Stromboli volcano. The condition of the volcano is still unknown as smoke and fog prevent signals being exchanged between Sicily and the island of Stromboli. It is reported, however, that a considerable number of persons have been injured as a result of the eruption and a torpedo boat has been sent to Stromboli with men and material to assist persons in distress.

A panic still prevails in Calabria and many persons are fleeing from the villages along the coast.

## Nature's Way Is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce is following after Nature's plan of restoring health.

He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry-bark, Queen's root, Golden Seal root, Bloodroot and Stone root, specially exert their influence in cases of lung, bronchial and throat troubles, and "Discovery" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers, of all the several schools of practice, for the cure not only of the diseases named above but also for indigestion, torpor of liver, or biliousness, obstinate constipation, kidney and bladder troubles and catarrh, no matter where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession. A request by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book free.

That is worthy of your attention if needing a good, safe, reliable remedy of known composition for the cure of almost any old chronic, or lingering malady. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid low-price volume, with engravings and colored plates. A copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing only, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound 31 stamps.

## RIOT AT A BALL GAME.

Spectators Crowd Upon the Field and Start a Fight.

Wheeling, W. Va., April 30.—A riot occurred in the beginning of the Wheeling-Springfield Central league game. An official of the Springfield club and Umpire Llewellyn got into an altercation over a decision during which several hundred spectators crowded upon the field and began fighting. Several spectators drew revolvers and serious trouble was averted by the arrival of officers.

Warrants were sworn out charging several spectators with carrying concealed weapons.

## 'Pneumonia's Deadly Work'

had so seriously affected my right lung," writes Mrs. Fannie Canaan, of Rural Route 1, Georgetown, Tenn., "that I coughed continuously night and day and the neighbors' prediction—consumption—seemed inevitable, until my husband brought home a bottle of Dr. King's New Discovery, which in my case proved to be the only real cough cure and restorer of weak, sore lungs." When all remedies utterly fail, you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by H. P. Dunn & Co., druggists, Brainerd, Minn., 50c and 1.00. Trial bottle free.

Halsey at Honolulu.

Honolulu, April 30.—Theodore V. ## CATARRH CAN BE CURED

Kill the Germs by Breathing Hy-o-mei. Gives Quick Relief.

Many people who have suffered with catarrh for years naturally feel that the disease cannot be cured, and become discouraged.

Their failure to get relief is due to the fact that they have not used the right remedy. Catarrh is an affection of the head, throat and lungs, and cannot be cured by stomach dosing.

The only scientific and natural treatment for this disease is Hy-o-mei, which is breathed through a neat pocket inhaler, so that its healing medicated air reaches the most remote air cells, kills all catarrh germs, and restores the mucous membrane of the nose, throat and lungs to a healthy condition.

Hy-o-mei is the only cure for catarrh that has ever been sold with the understanding that it was to cost absolutely nothing unless it cured. H. P. Dunn & Co. sells Hy-o-mei in this way and are always ready to refund the money if it does not relieve and cure catarrh.

The healing and antiseptic balsams of Hy-o-mei perform their purpose to perfection, and by using this remedy for a few times each day, you can soon cure yourself of any catarrhal troubles.

A complete Hy-o-mei outfit consisting of a bottle of Hy-o-mei and an inhaler costs but \$1.00.
